Tokenized Circular Ecosystem to Source, Clean Up and Recycle Plastic Waste

Climate Impact Potential

Researchers estimate a loss of 1-5% in marine ecosystem services as a result of plastic pollution. This reduction equals a loss of about \$500 billion to \$2.5 trillion per year !!!

Plastic Waste as a Mineable #RESOURCE

- 1 We need to **Stop using Virgin Materials** and instead use recyclable plastic materials
- 2 **Loop out End-of-life Plastic and Transform into Biofuel** (waste-to-fuel processing)
- 3 Apply **Mobile, Decentralized, ML and AI** technologies to **Engage and Reward People (Smartphone Users)** to be part of a **Global Clean Up Movement** and give plastic waste a **Realistic Valuation Proposition**
- 4 Trigger a **Plastic Gold Rush** and turn Plastic Waste into **Digital Gold** rewarded with **OPCOIN** and **OPEQUITY** Crypto Tokens)

Engage an Army Of Smartphone Users

#PTAGGER

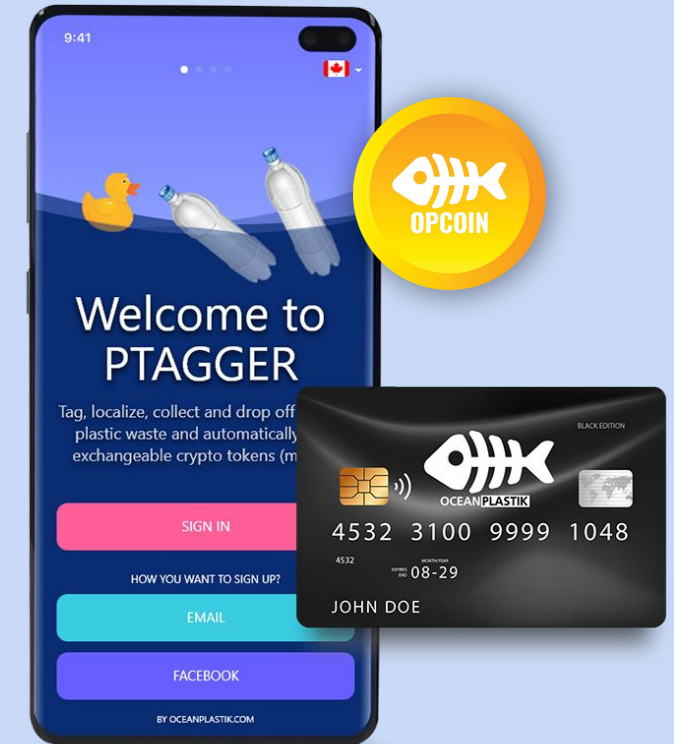

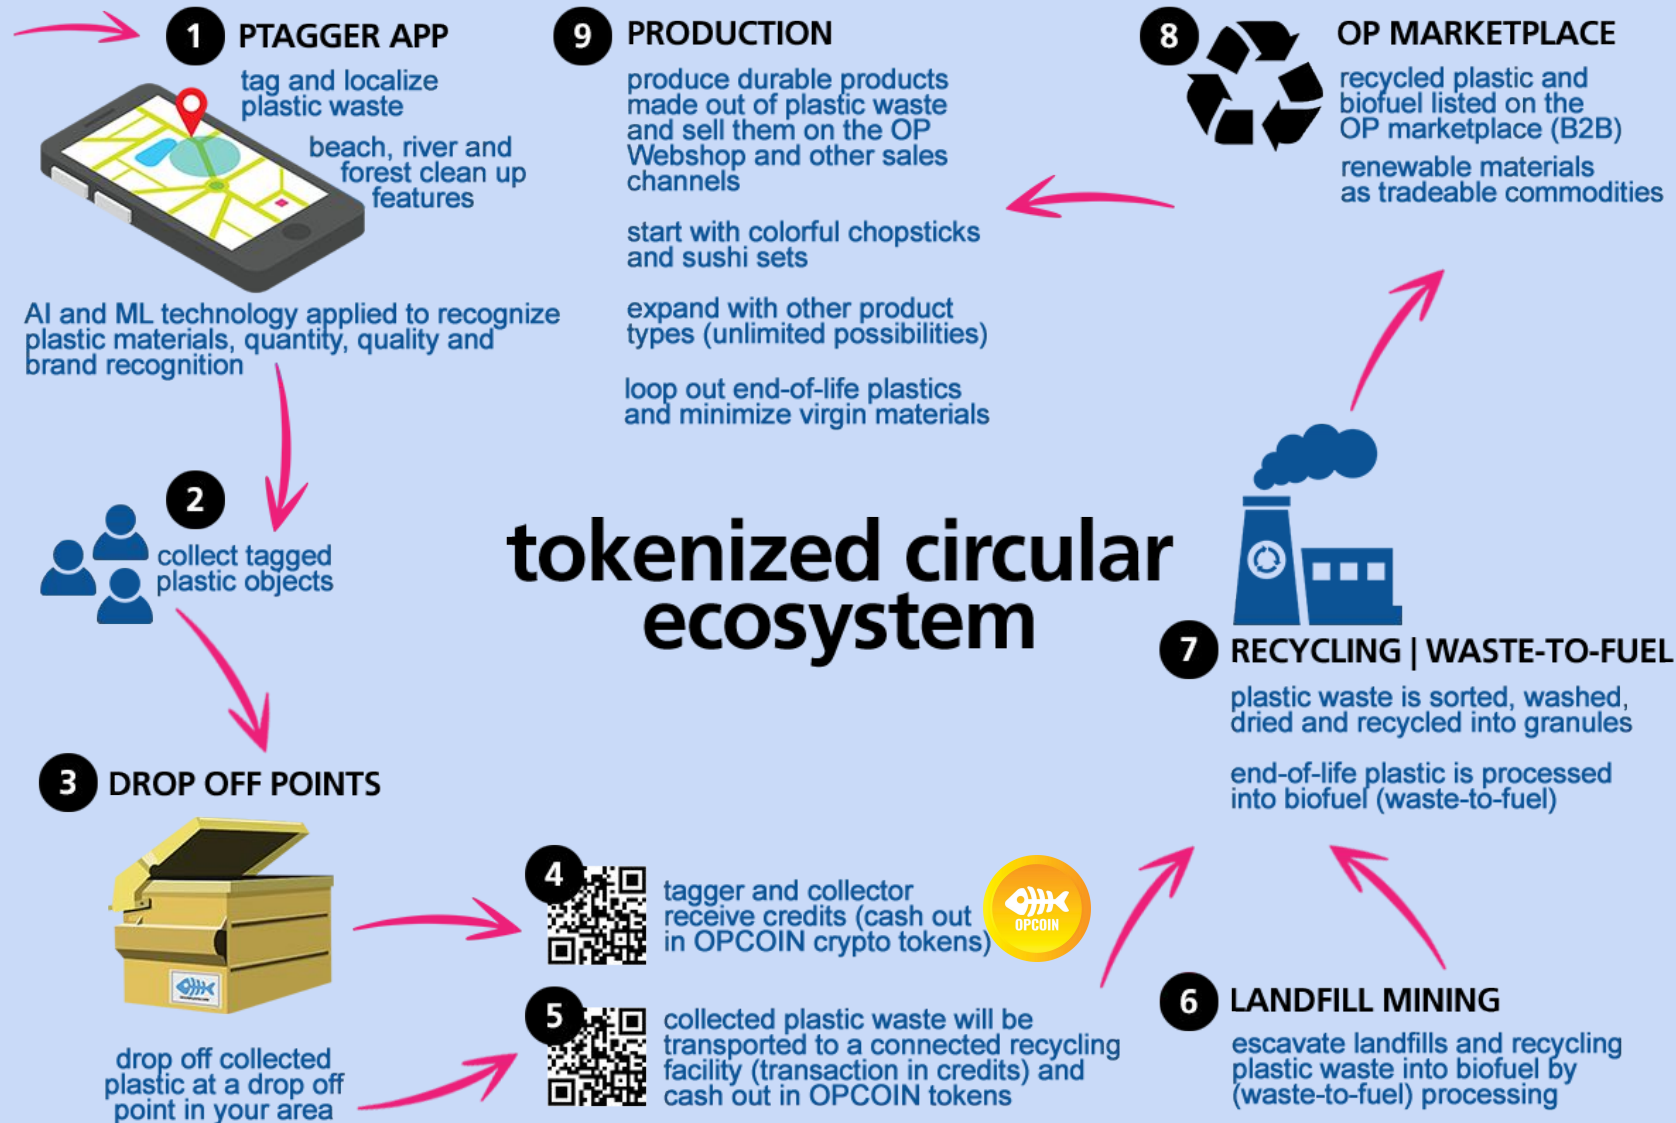

A mobile App to tag, localize, collect and drop off plastic waste including organizing clean up events. Users are rewarded with in-app credits which can be exchanged into **OPCOIN** (the Plastic Crypto Token).

Loop Plastic Waste and Maximize the Reuse of Resources

Worldwide 6.93 billion smartphone users (potential PTAGGER users)

#CITIZENSACTION

Issue **Crypto Debit Cards** (OP crypto cards) and **in-app features** for token holders to **access** and **manage their earnings** (OPCOIN tokens) combined with **Cashback Discount Offers** (products and services from partners)

Pyrolysis Oil - Sustainable Replacement for Fossil Fuel

#BIOFUEL

Landfill mining (excavating sites with stored plastic waste)

Performance **per 1 unit**

Up to **5,000 kilo recycled plastic** per day results in **4,250 liter of biofuel**

€ 0.70 per liter | **€ 2,975** per day

Durable Products from Recycled Plastic Waste

The **Global Chopsticks Market** is estimated by 2027 \square **USD 24,6 billion**

#CHOPSTICKS

Cost Price

€3,00

Retail Price

€12,99

Start (initially) with producing unique **colorful Chopsticks and Sushi Sets**

Made out of recycled plastic waste and coated with a layer of epoxy coating (BPA free)

Sales Profits will be allocated to re-invest and expand with drop off points, clean up, recycling and production infrastructure

Expand with other product types: plant pots, photo frames, panels, table tops, furniture applicants or **custom production collaborations** (partners)

With your support we can start to develop a Tokenized Circular Ecosystem and start our journey to create real impact by sourcing and recycling plastic waste out of our natural environment

Funding Strategy

#SEEDROUND

□ *Scheduled for Q2/2024*

- * Launch **Sponsor Program** (Band Of SuperHeroes)
- * Investment Tickets from **€2,500 or higher** | **Seed Round target €500,000**
- * Funding in Exchange for **OPCOIN** and **OPEQUITY** tokens
- * Submit Grant proposal **EIC Acceleration Program** (EU Fund) | **up to €17.5M**
- * Start Team Formation (**Czech Republic**) and Incorporation (**Liechtenstein | Switzerland**)
- * Prepare **OPCOIN ICO** | **OPEQUITY STO** (Token Offerings) | **raise funds (retail) investors**
- * Start Development **OP platform** and **PTAGGER app** | **TTM in Q2/2025**

#GOALS

□ *Plastic Gold Rush (waste to renewables rewarded with Digital Gold)*

- * **OPCOIN** (utility) tokens to **engage and reward** users to **localize, mine and clean up plastic waste**
- * **OPEQUITY** (equity) tokens (tokenized company shares) and **OPCOIN** tokens **listed on Tier 1 Crypto Exchanges**
- * **Raised funding to invest** in drop off points, mining, recycling, waste-to-fuel and production infrastructure
- * From **Q2/2025 operational, Start in Bali (Indonesia)** | create **Proof Of Concept** before scaling and expanding
